Public Servant Failed To Identify Themselves

Describe the incident. 500 word limit. Please number your paragraphs

My Care Coordinator called me at 10:43am on 22 August 2023 (on a Private number, whether this is her mobile (+61435686278) or a landline at the clinic I'm not sure, but on many occasions, I have complained about the Private number and want them to identify themselves when calling. My requests have been ignored). Anyway the problem is, is during this conversation which was not recorded unfortunately, Amber would not admit that she is a public servant. She kept saying she was a Nurse. Which I've only just recently learnt she's a nurse. I tried to get her to identify herself as a public servant and she refused to and wouldn't admit she was a public servant. She also refuses to send me anything in writing. I've only just learnt of the clinics email address (since being part of the Grand Jury) and have sent them an email with executive and beneficiary letterhead requesting confirmation of Amber being a public servant, along with other relevant questions about my health records. Failure of Lawful Due Process to identify herself as a public servant. I will request permission to record all conversations with Government and Corporations from now on (very recently, some have! Never have I ever come across that since I started trying to request permission to record conversations here and there about mid last year).
